

K-Love (107.1) is a very important part of our daily lives. We listen to it all day long. It is an incredible influence on my children to have the option of radio broadcasting that doesn't have any questionable songs, lyrics, commercials, jokes, etc. This is the only such radio station in our area that is available. Almost everyone that I know at some time listens to this station and I believe that we should have as much right as anyone to have our radio station available to us even if it is a national station. No one should be allowed to make that choice for me. If this station were to be displaced by a LPFM station we would not have a station available to us that played music that is not morally questionable with djs who have very few guidelines on what they can say on the air. We would not listen to FM radio at all if this station were not available.
